Courses (~37 completed)

- SQL, MySQL, MongoDB
- Internet Programming
- Data Structures & Algorithms
- Artificial Intelligence
- Data Analysis / Data Science
- Data Communication and Networking

During my studies at Hawassa University, I completed approximately 37 courses. Some major ones are listed above.

About Me

I am an Information Systems student at Hawassa University who is currently pursuing a Bachelor of Science (BSc) degree. I am passionate about technology and continuously improving my knowledge in web development.

I specialize in front-end development and have experience working with HTML, CSS, and JavaScript to build responsive and user-friendly websites.

In addition, I have knowledge of MySQL for database management. During my studies, I completed approximately 37 courses that helped me build strong technical and analytical skills.

I also have basic knowledge of data analysis and computer networking. I learned networking concepts such as IP addressing and Variable Length Subnet Masking (VLSM) used for efficient network configuration in organizations and companies.

My goal is to become a professional web developer and continue improving my skills in modern web technologies and data-driven systems.

Skills

JavaScript | Node.js | Python | Java | HTML5 • CSS3 | SQL | Project Management

Achievements

- Developed and maintained dynamic websites improving user engagement by 67%
- Successfully implemented cybersecurity protocols that reduced security breaches by 51%

I consent to the processing of my personal data for the purpose of recruitment.
